

BoscoLighting's thin low bay light is tough- built for places it might get shaken, beaten or exposed to the elements. This low bay fitting includes flex&plug and chain, so installation could not be easier. It can also be mounted as a fixture to ceilings or walls.

As with most of our product range, our low bays are interconnectable with our intelligent lighting control system and can be turned on and off again without any warm up or cool down restrictions. With special heat management design, this light is designed to operate 24/7 for up to 3 years without missing a beat!

## Features

- Maintenance free and quality build to protect against vibrations and ensure long lasting life
- Electrician friendly - Easy to install
