

BLEX-037

BoscoLighting's stairnose extrusion is an architectural option that will enhance the aesthetic of your stair lighting projects. Manufactured from aluminium, it features low profile without compromising on safety. It is supplied to a length of up to 2m and installed directly onto stair treads using screws or a suitable adhesive.

Order together with our LED strips and drivers, it can create a beautiful lighting effect on the edge of each step, particularly applicable in areas where low light conditions.

Contact our lighting specialist for more information!
