

BLEX-046

Increasingly popular with architects and designers, the BLEX-046 extrusion is a rectangular profile designed to accommodate several LED strips with massive light output. With its 85 mm deep frame and 61 mm wide body, the linear extrusion can make a statement in any modern office space as a suspended pendant.

The pendant extrusion is available in an anodised finish as standard with a further choice of colour as a custom solution. Supplied as standard in 1m or 2m lengths. Joiners are available for systems of continuous lines. The high quality aluminium extrusion can be cut to length as your require.

Features

- Easy to cut to size or extend as needed
