BLEX-092

BLEX-092 is a wide extrusion designed to accommodate multiple LED strips with massive light output. Perfect for architectural and commercial linear applications. This is definitely a product that adds value to your or your client's latest project. With the U-shape frosted diffuser, it offers dot free illumination.

Supplied as standard in 1m or 2m lengths. The high quality aluminium extrusion can be cut to length as your require.

Contact our lighting specialist for more information!

Installation Instruction

Driver

Extrusion can be surface mounted to ceilings with brackets or suspended using suspension kits.

This extrusion can accommodate several BoscoLighting SMD5050 or SMD3528 strips for maximum illumination.

Place drivers inside the upper section of the extrusion, otherwise, place it remotely.

*LEDs and driver not included.
