

BoscoLighting's LED Round Bollard light is made of die-cast aluminium to protect against rust. With the top diffused acrylic lens it creates an excellent low glare illumination. Perfect for gardens, walkways, building exteriors, squares and parks.

This bollard comes standard with 600mm Height and 90mm Diameter, suitable for most of the landscape projects. Product height can be customised by request.* Contact one of our LED lighting specialists for more information.

* options may be subject to minimum order quantities
