Powered by advanced SMD2835 chip technology, our IP65 2835 Strip Light pumps out an impressive 20 watts per meter for brilliant illumination. Sealed with silicone for IP65 splashproof protection, it's a breeze to clean and perfect for bathrooms, kitchens, or outdoor spots.

To top it off, we offer a range of aluminum extrusions for a polished finish. With over 70 options, including flush, surface-mounted, and suspension styles, you'll find the perfect fit.

Available in convenient 5-meter standard rolls, or opt for custom lengths to fit your unique space.

Features

- **Enhanced Flexibility:** 2835 Strip Light boasts superior flexibility, effortlessly blending into any space with its super flexible form that adheres to almost any surface.*
- **Waterproof Design:** IP65 rating ensures resistance to water and dust, ideal for indoor and outdoor use.
- **Professional Finish with Aluminum Extrusions:** Extend the lifespan and add a polished finish with optional high-quality aluminum extrusions, enhancing the visual appeal of your project.
- **Customised Lengths:** Available in standard 5-meter rolls. For tailored requirements, please allow for a longer lead time.
- **Optional Pre-Assembled Service:** Opt for our optional pre-assembled service (available when ordering LED extrusions and LED drivers) to streamline your installation, guaranteeing a seamless and professional finish with ease.

*Wipe dry the extrusion using a lint-free cloth before installation, peel back the tape backing and stuck in place using a static glove. Correct installation of this product requires a few dabs of silicon along the length to hold it in place. The glue is normally enough, but sometimes it doesn't stick so well to the paint and so we recommend a little dab of silicon every 20cm or so on each side of strip in a zig-zag pattern.
