

Introducing the FLEX IP67 Waterproof Flexible LED Neon Strip Light – an innovation in outdoor lighting that redefines design possibilities. Crafted to illuminate complex irregular shapes, this cutting-edge strip light boasts unparalleled flexibility and dynamic aesthetics, catering to both high-end residential and commercial spaces.

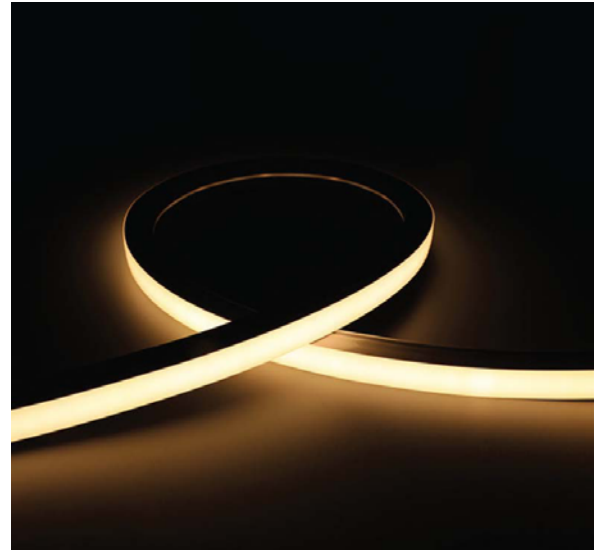

Engineered for outdoor environments, each meter operates at 14 watts, allowing for a maximum 5-meter run. With convenient connectors, extend and reshape effortlessly to match your vision.

Notably, this standalone marvel negates the need for extrusion, streamlining installation and enhancing versatility.

## Specifications

- Code: **BLSP-FLEX-16**
- Power (W): 14
- Luminous Flux (lm): 840
- Input Voltage (V): DC24
- Connect: Insulated Cable
- CCT: 3000K / 4000K / 6000K
- CRI: >80
- Viewing Angle: 120°
- Dimming: non-dim, 1-10V, DALI
- IP Rating: 67
- Dimensions (mm): 16\*16\*1000
- Operating temp(°C): -20 ~ 45
- Lifetime (hrs): 35,000 @ L90 B10
- Warranty (yr): 3
- Accessories: clip
- Connector: end feed, rear feed, side feed
