

BoscoLighting's New Magnetic Track System offers a fast and effortless track light solution and endless design possibilities.

The smart magnetic track system is available with recessed, surface-mounted, pendant options. We also offer all kind of joiners for expanding.

The joiners allow you to turn corners, increase the length, add a branch or spread the track out in four different directions. You can combine track rails to form aesthetic ceiling patterns that fit your specific needs.

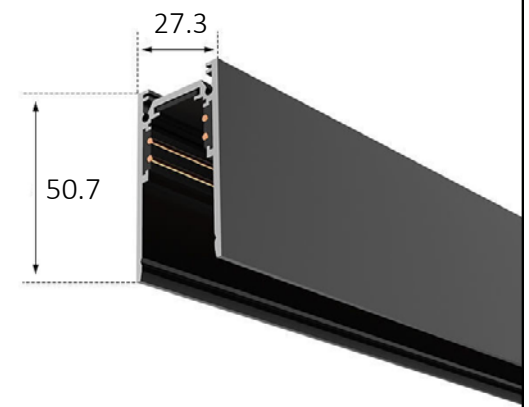

Ideal for applications where lights may need to be frequently adjusted. Particularly suitable in such as retail stores, art galleries, high-end homes and offices.

A range of magnetic lights are available at BoscoLighting.

No tools are required, as lights are held in place by magnetic force along the entire track.

Rotate, slide into any position, and adjust at any time. Lights can be safely released and adjusted and then securely clicked back into place.
