

Magnetic Track Light ME600

BoscoLighting's Magnetic ME600 Adjustable Linear Track Lights are designed to provide a flexible lighting solution for modern settings. Snap in the magnetic track and connect automatically by magnetic force. They feature a rectangular shape with the joint in the middle, which allows the fitting to be tilted within 90°.

They are perfect for applications with a changing utility or where flexibility is desirable such as retail stores, high end homes and art galleries as quick changes can be made without rewiring.
