

BoscoLighting's ME124 Small Track Light is designed in a small fitting, perfect for homes, cafes, offices and retail shops.

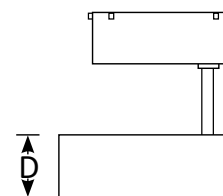

Its 360° horizontal adjustability and 90° vertical tilt allow you to direct lighting in any shape or form throughout the applications.

Twist and click, the ME214 is designed to be quickly installed in Australian Standard Tracks of 2, 3 or 4 wires (Single or Multiple Circuits). Compatible with DALI control, and DALI track system required.

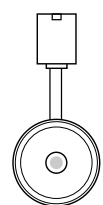

Also Available, Single and Multiple Circuit tracks, joiners and suspension kits.
