

Introducing the latest addition to our lineup, the brand-new model of ME228 track light. With its compact dimensions of D88*H95 and a power output of 18W, this fitting is designed to deliver exceptional lighting performance.

This versatile track light is available in multiple options, offering a range of viewing angles to suit your specific lighting requirements. Choose from 15, 24, 36, or 60 degrees, allowing you to create the perfect illumination for any space. Additionally, this new fitting can be customized as a Zoomable Lens Track Light, allowing you to adjust the viewing angle anywhere between 15 and 60 degrees, providing enhanced flexibility and control over your lighting design.

The ME228 is designed to be quickly installed in Australian Standard Tracks (Single or Multiple Circuits). Compatible with DALI control, and DALI track system required. Also Available, Single and Multiple Circuit tracks, joiners and suspension kits.
