

BoscoLighting's new 'ME267' Track Light features a floodlight look, suitable for high ceilings ranging from 3 to 5 metres. With unique industrial design, this product is perfect for lighting up cafes, restaurants as well as entrance and waiting areas as quick changes can be made without rewiring.

Twist and click, the ME267 is designed to be quickly installed in Australian Standard Tracks of 2, 3 or 4 wires (Single or Multiple Circuits). Compatible with DALI control, and DALI track system required.

Also Available, Single and Multiple Circuit tracks, joiners and suspension kits.
