

This thin, elegant track light is designed to provide a flexible lighting solution for modern settings. It features a rectangular shape with the joint in the middle which allows the fitting to be tilted within 90°. Great for areas with a changing utility or where flexibility is desirable such as retail stores, shopping centres and art galleries as quick changes can be made without rewiring.

It can be easily inserted to Australian Standard Tracks of 2, 3 or 4 wires (Single or Multiple Circuits) or surface mounted to the ceiling. Also compatible with DALI control, and DALI track system required.

Additionally, a range of accessories including single and multiple circuit tracks, joiners, and suspension kits are available to further enhance its functionality and versatility.
